ABOUT ME

Motivated Junior Full Stack Developer with training in modern web technologies including JavaScript, React, Node.js, and SQL. Experienced in building responsive and scalable web applications through academic and personal projects. Passionate about writing clean code, solving complex problems, and continuously learning new technologies. Seeking an opportunity to contribute to a dynamic development team while expanding my technical expertise.

Technical Skills

Programming Languages

JavaScript

TypeScript

SQL

HTML5

CSS3

python

Frontend Development

React.js

Responsive Web Design

UI Implementation

Modern CSS frameworks

Backend Development

Node.js

Express.js

RESTful API Development

Databases

MySQL

PostgreSQL

MongoDB

Tools & Technologies

Git & GitHub

Postman

Visual Studio Code

Testing & Debugging Jest, Mocha, Cypress

Projects

Developer Portfolio Website

GitHub: (https://github.com/Dakalomafel)

Live Demo: (https://dakalo-virtual-card-red.vercel.app)

Designed and deployed a responsive personal portfolio website.

Built using modern frontend technologies.

Showcases development projects and technical skills.

Implemented responsive design for mobile and desktop devices.

Technologies:

HTML, CSS, JavaScript, React, Vercel Deployment

Full Stack Web Application

GitHub: (https://github.com/Dakalomafela)

Developed a full stack web application with frontend and backend components.

Built RESTful APIs to manage application data.

Implemented database integration for persistent data storage.

Focused on clean code practices and scalable architecture.

Technologies:

React, Node.js, Express.js, SQL / MongoDB

API Development Project

Created backend services using Node.js and Express.

Implemented REST API endpoints for data communication.

Tested API endpoints using Postman.

Technologies:

Node.js, Express.js, REST APIs, JSON

Education

Full Stack Development

Zaio Institute of Technology

2025– 2026

Key Learning Areas

JavaScript programming and modern ES6+ features

Frontend development using React.js

Backend development with Node.js and Express.js

RESTful API design and integration

Database management using SQL and NoSQL databases

Version control using Git and GitHub

Debugging, testing, and code optimization

Building and deploying full stack web applications

Full Stack Web Development

FNB App Academy

2024 january to 2025 december

Key Learning Areas

Web application development

Responsive web design

API integration

Database integration

Software development best practices

Additional Strengths

Strong analytical and problem-solving skills

Ability to learn new technologies quickly

Good teamwork and communication skills

Detail-oriented with a focus on code quality
